

```
class Media {  
    void play() {  
        print("Playing media...");  
    }  
}
```

```
class Song extends Media {  
    String artist;  
  
    Song(this.artist);  
    @override  
    void play() {  
        print("Playing song by $artist...");  
    }  
}  
  
void main() {  
    Media media = Media();  
    media.play();  
  
    Song song = Song("Artist Name");  
    song.play();  
}
```
